DETAILED ACTION

Amendment

1. Receipt is acknowledged of the amendment filed 9 April 2004.

Allowable Subject Matter

2. Claims 1-3, 10-28, and 31-41 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The best prior art of Chmielewski fails to teach the specific components and the arrangement of these components as recited in independent claims 1, 27, and 41. For example, the best prior art of record fails to teach the arrangement of primary and secondary alignment indicators on the stage for multiple objects to be viewed, along with a first image collector having a first lens and a second image collector with a second lens that are in engaging relation with a support member that is engaged to the base portion that includes the stage. In addition, the best prior art of record also fails to teach the additional use of a third image collector that comprises a third lens. Hence, independent claims 1, 27, and 41, and the claims dependent on them are allowable.

Hence the best prior art of record fails to teach the invention as set forth in claims 1-3, 10-28, and 31-41 and the examiner can find no teaching of the specific photo-collection identification assembly, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's reasoning in amendment/response filed 9 April 2004.
